

RAPEX 10 – 12/03/2021

Risk type: Chemical

Notifying country: Germany

Alert number: A12/00335/21

The product contains clobetasol propionate (measured value: 0,0044 % by weight). Clobetasol is a corticosteroid that should be applied only if medically prescribed. Exposure to it could cause skin irritation and may lead to endocrine problems. Furthermore, the product contains hydroquinone (measured value: 3,64% by weight). Hydroquinone can cause skin irritation and dermatitis. The product does not comply with the Cosmetic Products Regulation.

Warnings:

1. Failure to follow all instructions and limitations on the use of this product could reduce the effectiveness of the mask and result in sickness or death.
2. A properly selected mask is essential to protect your health. Before using this mask, consult an industrial hygienist or Occupational Safety Professional to determine the suitability for your intended use.
3. This mask does not supply oxygen and must not be used in an atmosphere containing less than 19.5% oxygen.
4. Do not use when concentration of contaminants are immediately dangerous to health or life.
5. Do not use the mask in an explosive environment.
6. Natural rubber strap may cause allergic to certain people, advise the user to stop using the mask if this happens.
7. Leave work area immediately and return to fresh air if breathing becomes difficult, or other distress occurs.
8. Do not use with beard or other facial hair that may inhibit contact between the face and the edge of the mask.
9. Never alter, modify or abuse this mask.
10. Do not use for more than one shift (8 hours). No maintenance necessary. Discard the used mask after use.
11. Change this mask immediately if breathing becomes difficult or the mask becomes damaged or distorted, or a proper face-fit can't be maintained.
12. Store unused masks in box in a clean, dry non-contaminated area.

- ☐ Dust proof
- ☐ Prevent mist haze

FFP2 NR
Filtering Half Mask (NOT FOR MEDICAL USE)
CE2113 EN149:2001+A1:2009

Wearing instructions:

1. Facing the face of the mask without nose clip, pull the ear strap, with both hands, so that the nose clip indicated above the mask.
2. Put the mask against your chin.
3. Pulling the ear strap behind the ear, adjust the ear strap to fit as comfortably as possible.
4. Place the fingers of both hands in the middle of the nose clip, while pressing inward, move the fingertips along the nose clip to both sides until the nose clip is fully pressed into the shape of the bridge of the nose. Using both hands to pinch the mask nose clip may affect the tightness of the mask, possible.
5. Place the fingers of both hands in the middle of the nose clip, while pressing inward, move the fingertips along the nose clip to both sides until the nose clip is fully pressed into the shape of the bridge of the nose. Using both hands to pinch the mask nose clip may affect the tightness of the mask.

Model: JY-KN95
Specifications: 3090
Ingredients: Non-woven, Melt-blown cloth,
nose cap, ear band
Effective date: Two years
Production date: see the certificate
Standard: EN149:2001+A1:2009
Manufacturer: Shenzhen Jiyuan Technology
Industry Co., Ltd.
Production address: 305, building 5, No.1 Sanhe Road, Gaofeng
community, Dalang street, Longhua District, Shenzhen
Tel: +86075527212878
Production and expiry date is printed on the packaging.
Storage temperature: -23°C to 35°C
Storage relative humidity: <95%
Shelf life: 2 years from the date of production.
Production and expiry date is printed on the package.

MADE IN CHINA

Risk type: Health risk / other
Notifying country: Luxembourg
Alert number: A12/00337/21

The product advertises a protective potential against particles but its filtering capacity has not been tested by a relevant competent European conformity assessment body, and it misuses the CE marking and the model name of a different product from the same manufacturer, which is certified. The packaging of the two being identical, there is no possibility for the consumer to see that it is not the certified product. In addition, the product has a complete different shape and size than the certified product, and due to its small size, it does not cover the mouth and nose entirely. Consequently, it is not proven that the product fulfils the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect.

The product does not comply with the Personal Protective Equipment Regulation and with the relevant European standard EN 149.

Category: Protective equipment

Product: Particle filter mask

Description: White respiratory protective half-face mask of category FFP2 NR.

Packaging description: The product is individually wrapped in a transparent plastic bag and sold in a cardboard box containing 50 units.

Brand: JIA YUAN

Name: FFP2 NR Filtering Half Mask

Type / number of model: JY-KN95

Batch number: 20210120

Is the product counterfeit? No

Measures

Measures ordered by public authorities (to: Other)

Import rejected at border

Date of entry into force 26/02/2021

Risk type: Health risk / other

Notifying country: Germany

Alert number: A12/00328/21

The particle/filter retention of the material is insufficient (measured value as low as 83%). Consequently, an excessive amount of particles or microorganisms might pass through the mask, increasing the risk of infection if not combined with additional protective measures. As a result of the labelling, the mask may be worn in areas where hazardous substances are in use or during activities involving asbestos; since the mask fails to offer sufficient protection, this could lead to asbestosis with fatal consequences.

The product does not comply with the Personal Protective Equipment Regulation and with the relevant European standard EN 149.

Category: Protective equipment

Product: Particle filter mask

Description: Masks labelled as KN95 and FFP2, 10 masks per pack

Packaging description: The product is packed in a single plastic pouch, sold in a black cardboard box with 10 pieces.

Brand: Brüder Mannesmann
