

RAPEX 18– 07/05/2021

Risk type: Chemical

Notifying country: Germany

Alert number: A12/00595/21

The product contains nickel, arsenic and lead (measured values: up to 62 mg/kg, 4 mg/kg and 16 mg/kg, respectively). Nickel, arsenic and lead are prohibited substances in cosmetic products. Nickel can cause skin irritation and induce sensitisation or elicit allergic responses. Arsenic is toxic if swallowed or inhaled. Lead is harmful to human health, accumulates in the body, can cause developmental neurotoxicity and may affect breast-fed or unborn children.

The product does not comply with the Cosmetic Products Regulation.

Category: Cosmetics

Withdrawal of the product from the market

Date of entry into force 26/11/2020

Risk type: Health risk / other
Notifying country: Germany
Alert number: A12/00591/21

The particle/filter retention of the material is insufficient (measured values: as low as 19%); additionally, the mask does not properly adapt to the face. Consequently, the product does not fulfil the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect.

The product does not comply with the Personal Protective Equipment (PPE) Regulation and with the relevant European standard EN 149.

Category: Protective equipment
