

## RAPEX 22 – 04/06/2021

**Risk type:** Chemical

**Notifying country:** Denmark

**Alert number:** A12/00784/21

The crown of the watch (pendant) contains an excessive amount of lead (measured values: up to 2,5% by weight). Lead is harmful to human health, accumulates in the body, can cause developmental neurotoxicity and may also affect breast-fed or unborn children.

The product does not comply with the REACH Regulation.

---

---

**Risk type:** Health risk / other  
**Notifying country:** Germany  
**Alert number:** A12/00785/21

The product bears a CE marking but its filtering capacity has not been tested by a relevant competent European conformity assessment body. The particle/filter retention of the material is insufficient (measured values: as low as 69%). Consequently, the product does not fulfil the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect. The product does not comply with the Personal Protective Equipment (PPE) Regulation and the relevant European standard EN 149.

---

**Category:** Protective equipment  
**Product:** KN95 Mask Disposable Protective Mask

---

**Description:** Protective respiratory filtration half-face mask  
**Packaging description:** The masks are sold sealed in a paper/plastic packaging, six per pack. Product information (brand, model, company, instructions for use) are shown in black lettering on a white background with green markings on the back.  
**Brand:** MDWayson  
**Name:** Unknown  
**Type / number of model:** MD-PM001  
**Batch number:** MFG: 20042101  
LOT: 2020/4/21  
**Is the product counterfeit?** Unknown

---

**Measures**  
Measures ordered by public authorities (to: Other)  
Removal of this product listing by the online marketplace

Measures ordered by economic operators (to: Retailer)  
Removal of this product listing by the online marketplace

---

**Risk type:** Health risk / other

**Notifying country:** Iceland

**Alert number:** A12/00779/21

The particle/filter retention of the material is insufficient (measured values: as low as 73%) and the total filtration capacity of the mask is insufficient (measured mean values: as low as 60%). Furthermore, the mask does not fit correctly to the face of the user. Consequently, an excessive amount of particles or microorganisms might pass through the mask; thus, even if combined with other recommended measures, it may not properly protect.

The product does not comply with the Personal Protective Equipment Regulation and with the relevant European standard EN 149.

---

**Category:** Protective equipment

**Product:** Particle filter mask

---

**Description:** White respiratory protective half-face mask.

**Packaging description:** The product is sold in a white cardboard box containing 10 pieces.

**Name:** KN95 mask

**Is the product counterfeit?** Unknown

---

#### Measures

Measures ordered by economic operators (to: Distributor)

Recall of the product from end users
